

Surface Disinfectants

ACTRIL® COLD STERILANT

Actril Cold Sterilant is an effective, ready-to-use (no dilution required) disinfectant and sterilant for hard surfaces commonly found in pharmaceutical cleanrooms. Surfaces made from non-porous materials such as plastics, stainless steel or glass can be disinfected using Actril Cold Sterilant solutions. Examples include counter tops, walls, floors, etc.

Actril Cold Sterilant is a powerful disinfectant containing a proprietary mixture of 0.08% peracetic acid and 1.0% hydrogen peroxide. It is effective against a broad spectrum of organisms, including bacterial spores, fungal spores, bacteria, mycobacteria, yeast, molds and viruses. It is a powerful oxidizer that attacks and breaks down the organic components of microorganisms, not just killing them, but destroying their structure. This makes Actril Cold Sterilant one of the fastest acting and most effective disinfectants available.

Features and Benefits

- Superior biocidal activity, making it effective against spores, bacteria, viruses and other organisms.
- Does not produce any toxic aldehyde vapors, keeping your employee safe.
- Compatible with all common cleanroom surfaces, keeping your facility safe.
- Easily disposable and biodegradable, keeping the environment safe.
- Filtered through 0.2 micron filters.
- Can be used as a broad spectrum disinfectant or as a germicidal disinfectant spray.
- Registered with the US Environmental Protection Agency (EPA).

ACTRIL COLD STERILANT			
PART NUMBER	REFERENCE NUMBER	DESCRIPTION	QUANTITY
176-02-046	78400-309	Actril Cold Sterilant, 6 x 1 US liters	1 case
176-02-043	78337-000	Actril Cold Sterilant, 4 x 1 US gallons	1 case
